Isorn Kittisares

Professional Summary

A seasoned professional with 12 years of experience in the Oil and Gas industry across four major roles: completion field engineering, technical sales, drill site management, and startup project management. Expertise spans downhole completion equipment, drill bits, offshore drilling operations, and project-based management. Proven ability to deliver technical solutions, drive sales, and oversee complex operations efficiently and safely.

Core Competencies

- Downhole completion equipment and drill bits expertise
- Offshore drilling, completion, and workover operations
- Technical sales and client relationship management
- Data analysis: drilling parameter optimization, drill bit performance analysis
- Startup and project-based management

Relevant Experience by Skill Set

Downhole Completion Equipment (2 years)

Role: Field Engineer at Weatherford

- Installation of downhole completion equipment on-site for drilling, workover, and maintenance projects.
- Worked on onshore (Pan Orient Energy) and offshore operations (CEC International and Chevron).
- Conducted tool maintenance and refurbishment at Songkhla Base.
- Specialized tools: Intermediate casing hangers, production packers (ESP pump adaptors), and subsurface safety valves.

Technical Sales (5 years)

Role: Technical Sales Representative at Smith and NOV

- Drove sales through technical solutions and optimized drilling parameters using performance data.
- Maintained technical support, tracked drill bit performance, and managed client inventory.
- Built and sustained strong client relationships with major companies, including PTTEP, CEC, Pan Orient Energy, and POS.

Drill Site Management (2 years)

Role: Drill Site Manager at CEC International

- Managed daily drilling operations, ensuring safety, regulatory compliance, and project efficiency.
- Supervised drilling operations and well workover projects, including fracking operations.
- Delivered operational excellence and risk mitigation in high-pressure environments.

Startup Project Management (2 years)

Role: Operations Manager at Siam Offshore Services

- Managed projects from initiation to completion, delivering innovative solutions to industry clients:
 - Supplied casing centralizers to Chevron.
 - Supplied and installed completion packers, TRSSVs, and chemical products for CEC.
 - Supplied roller sucker rod centralizers for Pan Orient Energy.
 - Conducted a successful trial run of wireline tools (thru-tubing pack-off) for PTTEP.

Work History

Siam Offshore Services Co. Ltd. – Operations Manager | 2017–2019

NOV Downhole Thailand LLC – Sales Coordinator | 2014–2016

Coastal Energy Company International – Drill Site Manager | 2013–2014

Smith International Inc. / Schlumberger – Technical Sales Representative | 2010–2013

Weatherford Thailand Ltd. – Field Engineer | 2009–2010

Chevron Thailand / Brunel Energy – Material Coordinator | 2007–2008

Education

Chulalongkorn University, Thailand

- Bachelor's Degree in Engineering (Mining and Petroleum) | 2000-2004
- Master's Degree in Finance | 2004-2009

Training and Certifications

- IWCF Drilling Well Control: Supervisor, Surface BOP Stack Level Certificate
- Engineer in Training (EIT) Program at Smith Headquarters, Houston, TX
- MI-SWACO Mud School Training, Houston, TX
- Schlumberger Basic Directional Drilling Course, Houston, TX
- Well Completion Equipment Training by Weatherford, Songkhla

Additional Information

Language Proficiency

- English: Very Good (TOEIC: 885, TOEFL: 96/120)
- German: Moderate (TELC DTZ B1 Certificate)
- Thai: Native

Computer Literacy

- Basic HTML/CSS/JS, Python, SQL
